The book is essential reading for anyone interested in the field of air transport and regional development. It is also a valuable resource for policymakers, planners, and practitioners who are involved in the development and implementation of air transport policies and programs.

What's Inside?

This book is divided into three parts:

1. **Part 1: Methodologies**
2. **Part 2: Case Studies**
3. **Part 3: Policy Implications**

Part 1 provides an overview of the different methodologies that can be used to assess the impact of air transport on regional development. Part 2 presents a series of case studies that illustrate the use of these methodologies in different contexts. Part 3 discusses the policy implications of the findings from the case studies and provides recommendations for future research.
