Volleyball: Game and Sport

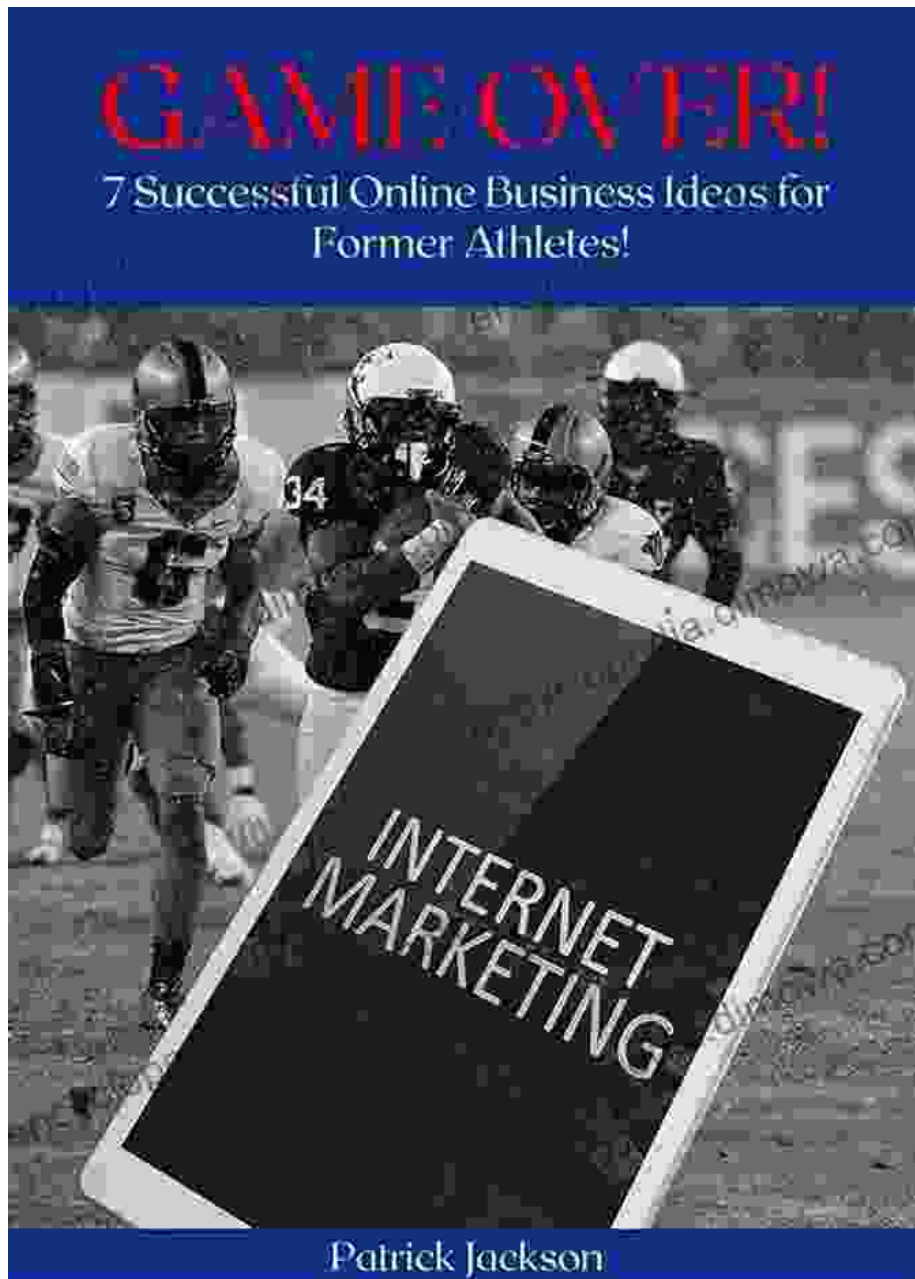

5 pages / 1140 words

GROWING UP in an all boys school, it was evident that some sports were favored more compared to the others. One class was that special time of the week for students to relax and unwind from the burden of academics. Basketball, Soccer, and Baseball were always the top picks that everyone looked forward to playing. I must admit, I'm a fan of team sports that require not only plenty of skill but teamwork as well. I suppose that's why these three would definitely be at the top of my list. However, with every favorite sport, there would always be that one sport that you would rather avoid. It's not that I have anything against this sport; it's just that I never really found it appealing. I didn't give it a chance and never fully learned it in the process. Truth be told, Volleyball is a famous Olympic sport known worldwide. It may not be as famous as Soccer or Basketball but this sport gets much recognition from both local and international games. Many games are shown frequently on various sports channels on TV such as Balls, ESPN, and Star Sports. Despite the sport's overall popularity, sadly Volleyball never really had a marvelous reputation for me back in high school. Sometimes, this sport would be regarded as the "gay sport" since majority of our gay classmates were fans of this sport. I'm not trying to stereotype, nor am I trying to be mean or sexist. There's nothing wrong with being gay, but Volleyball as a sport shouldn't be viewed this way. Sports are there for everyone to enjoy, we should never limit the people who play it. Perhaps this is a common misconception among the youth and could be a reason why this sport isn't as well loved compared to the others. Looking back, I shouldn't have been too involved with the sports that I only knew. I wasn't so judgmental and more open minded instead, maybe I would have been good at another sport today. After surfing the web for some time, I realized that Volleyball isn't such a difficult sport to play, but some roles can be a little confusing, especially for rookies. Just like any team sport, in order to play you must first have players so that you can form two teams that will compete against each other. Each team needs to have six players, who correspond to a particular role when playing. There are five different positions in Volleyball that are equally unique and important to the team. The first one is the Server, who is responsible for setting the ball into play during the game; he/she should have a wide knowledge of the sport. The second is the Spiker whose purpose is to score as many points by hitting the ball over the net. The next one is the Setter, his/her main job for the team is to set up the ball for the Spiker in order to score points. The Passer is the player that makes sure that the Setter receives the ball in order to set up the Spikers for offense...
