Watson's journey began in 1989 when he set out on a solo cycling expedition from London to Sydney. This grueling 18,000-mile adventure took him through 21 countries and across three continents. Along the way, Watson faced numerous challenges, including extreme weather conditions, mechanical failures, and dangerous encounters with wildlife. But through it all, he persevered, driven by his passion for cycling and his determination to reach his destination.

After completing his epic journey from London to Sydney, Watson continued to push himself, setting new world records and cycling through some of the most remote and inhospitable regions of the planet. In 2006,

he became the first person to cycle from the Arctic Circle to the Antarctic Circle, a distance of over 20,000 miles. And in 2009, he set a new Guinness World Record for the longest continuous cycling journey, cycling over 40,000 miles in just over 100 days.

Watson's accomplishments are truly remarkable, but what makes his story so inspiring is his unwavering determination and his love for cycling. In *Thirty Years On Two Wheels*, Watson shares his hard-earned wisdom and advice with aspiring cyclists and adventurers. He offers practical tips on everything from training and nutrition to bike maintenance and safety. But more importantly, he inspires readers to dream big and to never give up on their goals.

If you are a cycling enthusiast, an adventurer, or simply someone who enjoys a good story, then *Thirty Years On Two Wheels* is a must-read. Watson's memoir is a testament to the human spirit and the power of perseverance. It is a book that will inspire you to get out of your comfort zone and to live a life of adventure.
